Hi! I'm Gayle

Do you sometimes feel anxious
with your clients?

Does your stress level go up when theirs does?

Many client-facing professionals
deal with their own anxiety by catering to
clients' anxiety, rather than effectively helping
them realize their vision.

I work with groups and organizations to amplify
their authenticity and empower them to
develop confidence in their careers.

Gayle Feallock has more than 20 years working in client services, and is the author of "Feel Confident with Your Clients!"

Owner of Just Imagine Love in San Diego, CA, Gayle is a nondenominational Ordained Minister through Universal Life Church since 2007. She is a graduate of the Clairvoyant and Spiritual Leaders programs at Intuitive Insights and a certified Reiki Master through Reiki Wind.

She has worked in weddings and events; retail; hospitality; travel; and tourism. Her previous career as an editor at Harcourt taught her that it takes a community to create a work of inspiration, and showed her the importance of telling a story well.

Developing positive, successful relationships with hundreds of clients has been at the core of her professional life.

Feel Confident with Your Clients!

*It's OK to say,
"I Don't Know."*
